Tennessee Wonder Pole Bean

Tennessee Wonder [70 days]—A large handsome green podded variety with decidedly double barreled and curved pods 8 to 9 inches. If the beans are picked as they mature they will bear until frost.25c 1.10 2.00

WETSEL'S

Dependable Field and Garden Seeds are on sale in most every town in Shenandoah and Page Valley. Ask for Wetsel's Seeds at your local merchant.

Beans, Bush Lima

(Plant May to July)

Not Postpaid.
1 lb. 5 lbs. 10 lbs.

Early Giant-Podded—[60 days] The largest and earliest bush Lima Pods contain four to five large beans set close together. Two weeks earlier than the Fordhook. It is very prolific and of excel- lent quality.	25c	1.10	2.00
Burpee's Improved	25c	90c	1.65
Fordhook	25c	1.00	1.90
Henderson (Very prolific)	20c	90c	1.45

Beans, Pole Lima

(Plant May to July)

Not Postpaid.
1 lb 5 lbs. 10 lbs.

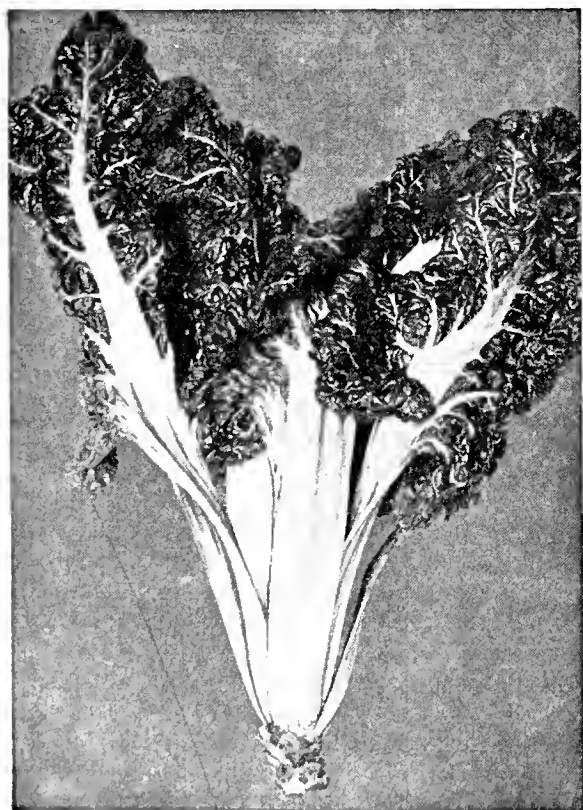

Early Leviathan—[75 days] A week earlier than any of the other pole Limas. Pods borne in large clusters and contain four to five, good-sized beans. Very produc- tive.	25c	1.00	1.90
Carolina or Sieva	20c	90c	1.60
Giant Podded (Extra Large)	25c	1.00	1.90
King of the Garden	25c	1.00	1.70

Table Beet

(Plant March till August)

Postpaid
Pkt. oz. ¼ lb. 1 lb

Detroit Dark Red—[50 days] An early maturing Beet of most remarkable uniformity. Splendid for the home garden, for market, for shipping and for canning. Flesh is very dark blood-red, tender, fine grained, and exceptionally sweet.	5c	10c	25c	90c
Crosby's Early Egyptian	5c	10c	25c	85c
Early Blood Turnip	5c	10c	25c	85c
Early Eclipse	5c	10c	25c	85c
Large Late Red	5c	10c	25c	85c
White Sugar	5c	10c	25c	70c

Lucullus Swiss Chard

(Plant March till July)

Swiss Chard—[35 days] This vegetable is becoming more popular every year. Besides the rich green foliage which is cooked like Spinach, the tender white leaf stalk may be prepared like Asparagus and in this way two entirely different dishes may be had from the same plant. Sow seed early in Spring and you will have greens until frost Lucullus Pkt., 5c; oz. 10c; ¼ lb. 25c 1 lb 80c. Postpaid

Mangels or Stock Beets

(Plant April till June)

Postpaid

	Pkt.	oz.	¼ lb.	1 lb
Danish Ludstrup	5c	8c	25c	65c
Golden Tankard	5c	8c	25c	65c
Large Red	5c	8c	25c	65c

Broccoli

(Plant in Jan. and Feb.)

(Winter Cauliflower) [150 days] Broccoli is similar to and culture the same as Cauliflower. It is well adapted to those sections where the season is long, cool, and rather moist. It withstands greater extremes of temperature than Cauliflower. Also known as Calabrese and Italian Sprouting producing an abundance of greens that are prepared in the same manner as Asparagus; has a delicious and delicate flavor appreciated by every user. White Cap Pkt. 5c; oz. 25c; ¼ lb 80c; 1 lb. \$2.80 Postpaid.

Brussels Sprouts

(Plant March to July)

Brussels Sprouts [100 days] is a delicious vegetable belonging to the Cabbage family but it excels Cabbage in mildness and sweetness. Culture is the same as Cabbage and should be sown in April or May in open ground. It is mostly grown for Winter use and as the plants are quite hardy they are allowed to remain in the garden until after frost which improves the quality. Long Island Improved.—Pkt. 5c; oz. 20c; ¼ lb 50c; 1 lb \$1.75 Postpaid.

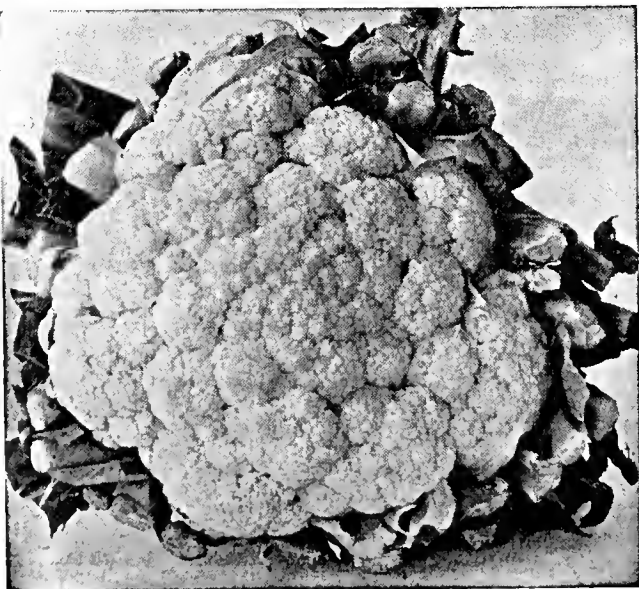

All Season Cabbage

Cabbage

(Plant January to July)

Postpaid
Pkt. oz. ¼ lb. 1 lb

All Season (Yellow Resistant) [90] days—This Cabbage is fine for Fall use and Winter storage. The heads measure 10 to 11 in. across and 7 in deep. They are solid and heavy, weighing from 9 to 10 lbs. each. Also used for early planting.	5c	20c	75c	2.50
Red Danish Round [120 days]	5c	20c	75c	2.50
Charleston Wakefield	5c	15c	50c	2.00
Copenhagen Market	5c	15c	60c	2.00
Danish Ballhead	5c	15c	50c	1.80
Early Jersey Wakefield	5c	15c	50c	1.75
Early Summer	5c	15c	50c	1.75
Golden Acre	5c	20c	75c	2.50
Houser	5c	20c	75c	2.50
Late Drumhead	5c	15c	50c	1.75
Late Flat Dutch	5c	20c	60c	2.00
Penn. State Ballhead	5c	40c	1.25	4.25
Surehead (Late)	5c	15c	50c	2.00
Wisconsin Hollander	5c	20c	75c	2.50
Chinese or Celery—This excep- tionally fine vegetable is a native of China. Sow seed like Cabbage in Spring or August. When the outer leaves are stripped off shows a pic- ture of Lettuce and Celery com- bined. Shredded it makes the finest slaw and stripped of its mid-ribs, which are eaten like Celery, it makes a fine salad. Also possesses a very mild flavor	5c	15c	55c	1.75

Snowball Cauliflower

Cauliflower

(Plant January to June)

Early Snowball [90 days]—One of our choicest vegetables. Requires same treatment and cultivation as Cabbage but can be grown both early and late. Not so hardy or resistant to hot, dry, or cold weather as Cabbage and requires abundance of water in summer. Pkt. 5c; oz. \$1.00; ¼ lb \$3.50 Postpaid.

Carrots

(Plant March to August)

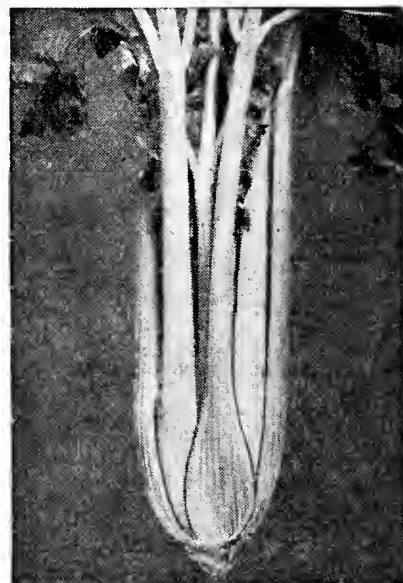

Postpaid
Pkt. oz. ¼ lb. 1 lb

Pride of Denmark [75 days]— A new Carrot introduced by a Danish seed grower. We have found it to be an excellent Car- rot of medium size, fine flavor, rich dark orange color, and un- usually productive.	5c	15c	35c	1.00
Chantenay, or Model	5c	15c	35c	1.00
Early Scarlet Short Horn	5c	15c	35c	1.00
Danver Half Long	5c	15c	35c	1.00

Celeriac

(Plant February to May)

Non Plus Ultra [120 days] (Turnip Rooted Celery)
The plant forms a thick edible root and requires no hilling. The flesh is pure white and tender. The flavor is not unlike that of the blanching type of Celery. It may be either cooked and creamed or served cold with vinegar as a salad. Its main use, however, consists in adding flavor to soups and stews of which it has no equal. Pkt. 5c; oz. 25c; ¼ lb 75c. Postpaid.

Fordhook Celery

Celery

(Plant February to April)

Postpaid
Pkt. oz. ¼ lb. 1 lb

Fordhook [120 days]—This variety is without question the finest in existence. The plants are stocky and compact averag- ing 15 to 18 in. and easily blanched. Always tender, crisp, juicy, and a fine keeper.	5c	30c	1.00	3.25
Columbia	5c	25c	90c	3.00
Giant Pascal	5c	20c	75c	2.50
Golden Hearted	5c	25c	90c	3.00
Golden Self Blanching	5c	30c	85c	3.00
Winter Queen	5c	20c	75c	2.50
Improved White Plume	5c	20c	75c	2.50

Collards

(Plant March to August)

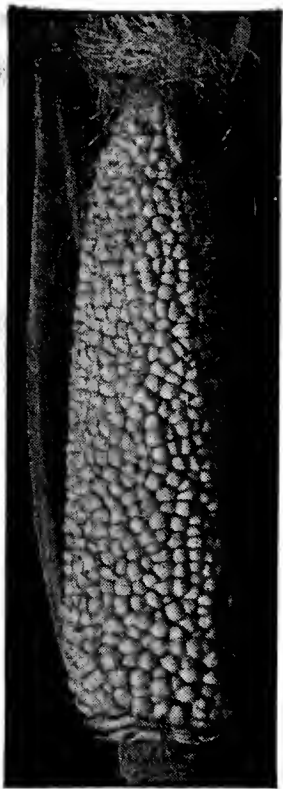

Georgia, Southern or Creole [80 days]—One of the most popular Southern vegetables, largely used in place of Cabbage. It is hardier and easier to grow than Cabbage and can be grown on poorer soil and withstand insects better. Cultivate like late Cabbage. Pkt. 5c; oz. 15c; ¼ lb. 35c. Postpaid.

National
Eezy Wear
Garden Glove

A NEW AND BETTER GARDEN GLOVE

Men and Women sizes. Price 75c a pair. 2 pairs \$1.40. 80c each Postpaid.

Country Gentleman Corn

Sweet or Sugar Corn

(Plant April to July)

Not Postpaid
1 lb. 5 lbs. 10 lbs.

Country Gentleman [80 days]—One of the richest flavored sweet Corns. Makes a good sized ear, with a small cob, densely covered with irregular rows of very long, slender pearly white grains of the best quality. It will keep tender and fit for use for a long season and is sometimes called the "Shoe Peg."

Golden Cross [76 days]—The greatest advance in Sweet Corn since Golden Bantam was introduced. A bright yellow 12-rowed Corn with quality equal to Golden Bantam in every way. Very resistant to Bacterial Wilt and Stewart's Disease. Two or three times as productive as Golden Bantam and only six days later in maturity.	35c	1.50	2.75
Adams Extra Early	20c	75c	1.40
Adams Early	20c	75c	1.40
Black Mexican	25c	1.15	2.20

White Wonder	5c	20c	60c	2.00

Egg Plant

(Plant February to April)

Black Beauty [120 days]—Sow early in Spring and set in rows 2 feet apart and 3 feet from row to row in rich loamy soil. 5c pkt.; 30c oz.; \$1.00 1/4 lb.; \$3.75 1 lb. Postpaid.

Endive

(Plant March to May. August to September)

	Pkt.	oz.	1/4 lb.	1 lb.
Green Curled [40 days]—The most popular variety producing beautiful curled, tender dark green leaves which blanches cream white. Excellent salad greens.	5c	15c	40c	1.25
Broad Leaf Batavian	5c	15c	40c	1.25
White Curled	5c	15c	35c	1.15

Herbs (For Flavoring)

(Plant Early Spring)

	Pkt.	oz.	1/4 lb.	1 lb.
Drill—Young stems used for flavoring soups and sauces. Dry branches and seeds are much prized for flavoring pickles, and seeds also used extensively in making kraut. Sow seed in early Spring.	5c	10c	30c	90c
Sage—An indispensable perennial Herb much in demand for adding flavor to many kinds of dishes. Used fresh or dry.	5c	25c	85c	3.00
Saffron—Sometimes used for coloring but mostly for flavoring.	5c	25c	85c	3.00

Kale

(Plant February to April)

	Pkt.	oz.	1/4 lb.	1 lb.
Dwarf Blue Curled Scotch—[55 days] Hardy-compact, and of an outstanding bluish green color. Short stemmed and of strong growth. Extremely fine curled and especially desirable for Fall planting.	5c	10c	30c	90c
Tall Spring Kale	5c	10c	20c	50c
Early Curled Siberian	5c	10c	25c	70c

Kohl Rabi

(Plant March to May. August and September)

Early White Vienna [50 days]—A peculiar vegetable belonging to the Cabbage family and forming a turnip-shape bulb above ground, which is used in the same manner as Turnips. Sow in June or July and should be used when young and tender. Pkt. 5c; oz. 15c; 1/4 lb. 50c; 1 lb. \$1.60. Postpaid.

Crisp As Ice Lettuce

Lettuce

(Plant February to May. August and September)

	Pkt.	oz.	1/4 lb.	1 lb.
Crisp As Ice [60 days]—A compact heading variety of delicate flavor. Leaves thick and crumpled, deep green overlaid with dark brown. Slow to start to seed.	5c	15c	35c	1.00

Mustard

(Plant February to April—September to October)

	Pkt.	oz.	1/4 lb.	1 lb.
Tendergreen or Mustard Spinach—(24 days from planting to table.) It is a quick growing very tender Mustard with a Spinach flavor and has long broad leaves with a smooth surface and a white mid-rib. Tasty, delicious, and wholesome, standing extreme heat and cold. Does not shoot to seed like regular Mustard.	5c	10c	25c	.75
Southern Giant Curled	5c	10c	25c	.65
White Mustard	5c	10c	25c	.70

Okra

(Plant May or June)

Long Green [60 days]—Used for seasoning. For Winter use gather while tender and slice into narrow rings, string them and hang in shade to dry or they may be pickled like cucumbers or canned. Pkt. 5c; oz. 10c; 1/4 lb. 30c; 1 lb. 75c. Postpaid.

Onion Seed

(Plant February to April—August to September)

	Pkt.	oz.	1/4 lb.	1 lb.
Sweet Spanish [110 days]— "Special Riverside Strain." This Golden Spanish Onion grows to a very large size and is perfectly globe-shaped. The flesh is pure white, firm, crisp, and tasty. It has a light yellow skin and a small top.	5c	20c	70c	2.50

Parsley

(Plant February to April)

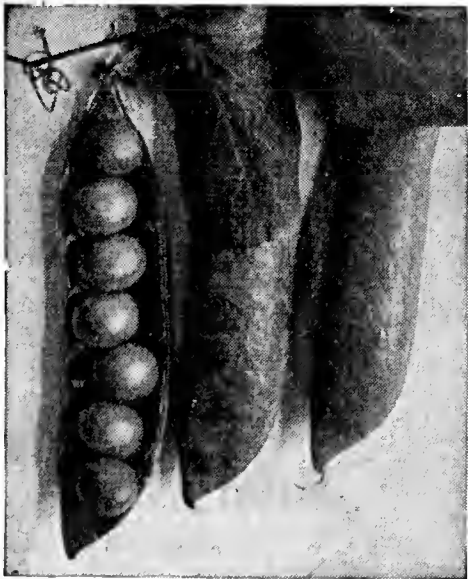

Fine for garnishing and flavoring.

	Pkt.	oz.	1/4 lb.	1 lb.
Double Curled	5c	10c	25c	.75
Single Curled	5c	10c	25c	.75

Parsnip

(Plant April or May)

Parsnips may be dug in the Autumn and stored for Winter use, but if left in the ground till the following Spring, they are very much improved in flavor.
Hollow Crown—Pkt. 5c; oz. 10c; 1/4 lb. 25c; 1 lb. 75c Postpaid.

Early Alaska Pea

Peas, Bush

(Plant February to May and August)

Blue Bantam—[55 days] (The best, first early, Dwarf Wrinkled Pea) This Pea is unequalled in every respect. It is positively the sweetest and most delicious Pea in existence. The dwarf vigorous vines carry an enormous crop of large deep blue-green pods, tightly backed with eight to ten peas.

Wyoming Wonder [75 days]—The latest introduction of unequalled pod size, exceptional in quality, resistant to wilt. Its pods are 5 to 6 or even 6 1/2 inches long, very dark green, pointed and somewhat

curved at the tip. Vine 24 to 28 inches tall. It has the unusual quality of remaining tender and sweet a week to ten days after reaching the picking stage.

Not Postpaid

1 lb 5 lbs. 10 lbs.

Gradus Or Prosperity [70 days]

This is the most famous of all stick Peas. Will not be destroyed by cold weather when other varieties would fail. Vigorous grower, very prolific, pods 4 to 4 1/2 inches with 8 to 10 large peas of delicious flavor.

Champion of England

Tall Telephone

Thomas Laxton

New Zealand	5c	10c	20c	.45
Norfolk Savoy	5c	10c	20c	.45

TOMATOES

(Plant January to June)

New 1935 Penn State Tomato

A new Tomato offered for the first time in 1935. An exceptionally valuable early variety that every gardener and farmer will want. Yields heavy clusters of medium size, globe shape, crimson purple fruit and is uniform in ripening. The foliage is self-pruning, coarse, and medium dark green originated by Dr. C. E. Myers of Pa. State College after 7 years of extensive breeding. Pkg. 25c

Postpaid
Pkt. oz. 1/4 lb. 1 lb

Break O'Day [95 days]—It is the earliest disease-resistant scarlet-red globe-shaped Tomato ever introduced. Extremely solid, meaty agreeable juicy fruit containing few seeds and very little acid. The vines are strong and medium height 5c 35c 1.10 4.00

Turnips

(Plant July to September)

Postpaid
Pkt. oz. 1/4 lb. 1 lb

Shogoin—This Japanese Turnip, recently introduced, is grown principally for salad greens, but makes a pure white root 2 to 3 inches in diameter between a flat and globe. It is so resistant to lice attacks that it can be grown in hot weather and it is ready to cut in about four weeks. Tops grow upright about 2 feet when developed but should be cut sooner, which will allow a second and probably a third cutting later. 5c 10c 20c .60

Wetsel's Dependable Field Seeds

Korean Lespedeza

DODDER FREE

Annual

A legume that will grow in acid soil and on thin worn-out lands. Very drought resistant. Can be sown without soil preparation. Will reseed and come from year to year. Should be in every pasture. Inoculate, using NITRAGIN inoculation.

High Grade Tenn.-Grown Seed. 10c lb.; \$9.00 per 100 lbs...Seed showing trace Dodder 1c per lb. less.

Sericea Lespedeza

A perennial, once started will stand indefinitely—very hardy and drought resistant. Thrives on thin acid soil. Very leafy and a heavy seeder. Will make two cuttings the first year. A heavy and deep rooted system. Plant in Spring after danger of killing frost. Sow about 2 lbs. per acre, in three foot rows, and cultivate first year. Cover about eighth inch. Inoculate using NITRAGIN inoculation.

Buckwheat

Japanese—Pk. 35c; Bu. \$1.25; 5 Bu. \$1.15 per bu.

Seed Oats

Jansen's Prolific Oats—This Oats comes from Penn., and Ohio and is of the Swedish type with seed some what lighter in color but very hardy, often weighing 50 pounds per measured bushel. Bu. \$1.00; 10 Bu. 95c per bu.

Swedish Select Oats—An extra heavy plump yielding quality much preferred by cattle and horse breeders. Highly recommended for Virginia and West Virginia. It makes especially good crops on both light and heavy soil. Bu. 85c; 10 Bu. 83c per bu.

Lee Cool Proof—This is a Winter Oats although it is also recommended for Spring planting. Our Winters in the Valley are too uncertain to recommend any Winter Oats for Fall planting, however, we do recommend this type for Spring planting where Oats of this type is desired. Bu. \$1.25.

STOP BIRDS FROM PULLING

PLANTED SEED USE

Cro-Tox

The Sure-Fire Repellent
(Non-Poisonous)

It keeps crows, larks, starlings, doves, blackbirds, pheasants and other corn pulling birds from molesting corn while it is germinating, sprouting and rooting. Saves seed loss and labor of replanting. Will not clog any planter.

1/2 pint, 1 bu., size 60c
1 pint, 2 bu. size \$1.00
1 quart, 4 bu. size \$1.50
Postpaid

Hairy Vetch

CULTURE—Vetch may be sown as early as the ground will permit in the Spring, at the rate of 15 pounds to the acre with one bushel of Oats to hold it up. May be sown same way in Fall, only using Winter Rye in place of Oats.

Vetch is a wonderful land improver. The Oats and Rye hold the Vetch up, and improve the quality of hay. Lb. 14c; 50 lbs. and up 13c per lb. Not postpaid.

Soy Beans

CULTURE—For hay broadcast 1 1/2 bushels per acre, for seed 1 bushel. Cow Peas and Soy Beans should not be sown in Virginia until the later part of May or first of June.

Care—If a crust forms on the land before the Soy Beans come up, break it up with a harrow. This will prevent what is commonly call "breaking their necks."

	1 Bu.	5 Bu.	10 Bu.
Virginia, (Brown)	\$2.10	\$2.05	\$2.00
Black Wilson	2.00	1.95	.90
Illini	2.10	2.00	1.90

Note—The Illini Soy Beans takes its name from the University of Illinois who is responsible for its origin and cultivation. It develops and matures in the same time (110 days) as the Manchou but produces both a better hay and bean crop. Beans are firm and shatter less when harvested than the average variety. It starts to branch out lower on the stem, making more foliage and therefore more hay.

Cow Peas

Culture and Care the same as for Soy Beans.

	1 Bu.	5 Bu.	10 Bu.
Mixed (Clay)	\$2.25	\$2.25	\$2.15
Black (Medium)	2.50	2.45	2.40
Whippoorwill (Gray)	2.50	2.45	2.40

Tennessee Cultivated Millet

Millet

Tennessee Cultivated—(Round Seed). This Millet withstands drought better than all other varieties. It is used as a Summer hay crop and particularly adapted to rich or bottom soils. It should be sown thickly and cut when the heads are in bloom, never allowing it to get old or seed to form as this causes a great drain on the soil besides materially injuring the quality of hay. Very useful for cleaning rich, foul lands of weeds as its quick, abundant, luxuriant growth smothers most weed. Sow one bushel per acre in May June or July. Two crops can be seeded on the same land in the season, if desired. An ideal crop to sow with Cow Peas. Ask For Prices.

Japanese, or Barnyard—(Called Billion Dollar Grass) Distinct from other millets; grows 4 to 6 feet high yielding an enormous crop that in quality is equal to corn fodder and is relished by stock. Sow in May, June or July 20 lbs. to the acre broadcast: or plant in 15-inch drills and cultivate until it is 18 inches high. When green, feed a moderate quantity at first gradually increasing the quantity as the animals become accustomed to it. Ask For Prices.

Cyclone Seeder

An excellent crank operated seeder at an attractive price for all. \$2.15 postpaid.

HORN SEEDER

Makes even broadcasting a sure process in the hands of all users. 85c; 90c postpaid.

Planting and Picking Bag No. 1..... \$1.35 each

Field Corn

(Selected and Tested. Price subject to change).

Certified—Reid's Yellow Dent—We are in a position this year to offer local-grown Certified Reid's Yellow Dent. The additional cost is so small compared to the results that you should not hesitate to pay the difference. Bu. \$2.00; 5 Bu. \$1.95 per bu.

Reid's Yellow Dent—One of the most popular yellow dent varieties. Ears average 9 to 11 inches in length; deep rich, golden yellow kernels. Matures in 115 days. 1 pk. 50c; 1 Bu. (56 lbs.) \$1.80; 5 Bu. \$1.75 Bu.

Lancaster Sure Crop—This variety has given excellent results the past few years especially on thin land. Ears 10 to 14 inches long with 14 to 16 rows of yellow broad grains. Season 90 to 110 days. 1 pk. 50c; 1 Bu. (56 lbs.) \$1.80; 5 Bu. \$1.75 Bu.

Bloody Butcher—In recent years this variety has become very popular because of its yielding qualities and its ability to produce a crop under adverse conditions. Kernels speckled red and yellow. 1 pk. 50c; 1 Bu. (56 lbs.) \$1.80; 5 Bu. \$1.75 Bu.

Early Massodent—Sometimes called White-Cap. Ears large, grains rather deep, pale yellow on cob, but shows up as a rich yellow when shelled. Medium fodder, fine for poor land. 1 pk. 50c; 1 Bu. (56 lbs.) \$1.80; 5 Bu. \$1.75 Bu.

Gold Standard—A fine variety resembling Reid's Yellow Dent except that it is earlier, ears may be a little longer, and a rich golden yellow. 1 pk. 50c; 1 Bu. (56 lbs.) \$1.80; 5 Bu. \$1.75 Bu.

Boone or Johnson County—A fine white dent variety with ears averaging 10 inches in length and 7 1/2 to 8 inches in circumference with 18 to 20 rows. Matures in 110 to 120 days. 1 pk. 50c; 1 Bu. (56 lbs.) \$1.80; 5 Bu. \$1.75 Bu.

Increase Farm Profits

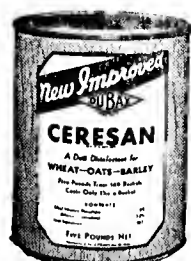

By Lowering Cost

SEMESAN JR.—(Improved) For seed, field and sweet Corn. Simple, quick, effective. Cost only 2 1/2c an acre. Protects Seed from rotting in cold wet soil, makes earlier planting possible. 4 oz. 50c; 1 lb. \$1.75.

SEMESAN—Makes seeds healthy. Semesan is the answer to the disease problems for the flower and vegetable grower. 2 oz. can 50c.

CERESAN (Improved) For Oats, Wheat and Barley. One pound treats 32 Bu. 1 lb. 75c; 5 lbs. \$3.00.

Ensilage Corn

Blue Ridge—A selection from the Pamunkey Ensilage Corn but is about ten days earlier. Within the past few years this Corn has been used in the Valley and has proven to be an excellent variety for this section. 1 pk. 60c; 1 Bu. (56 lbs.) \$2.25; 5 Bu. \$2.15

Eureka—This variety is a double purpose Corn, for aside from being a first-class ensilage Corn it can be used as a field Corn. It is tall and leafy, 12 to 15 feet high, with an enormous growth of fodder. 1 pk. 50c; 1 Bu. (56 lbs.) \$2.00; 5 Bu. \$1.90 Bu.

Pamunkey—The heaviest producer of all ensilage Corn. It is of strong and vigorous growth, attaining a height of 13 to 15 feet, yielding an unusually heavy growth of fodder, and usually bears two ears to the stock. The ears 10 to 12 inches long, 2 1/4 to 2 1/2 inches in diameter, with a good depth of grain. 1 pk. 60c; 1 Bu. (56 lbs.) \$2.25; 5 Bu. \$2.15 Bu.

Virginia—This variety is more on the type of ordinary field Corn, however it makes a large growth of broad, thick, succulent fodder and is a fine ensilage Corn. 1 pk. 55c; 1 Bu. (56 lbs.) \$2.00; 5 Bu. \$1.90.

Broom Corn

Any land that will grow Corn is adapted to Broom Corn. When the ground is thoroughly warm plant in 3 1/2 foot rows, thinning out to 8 to 10 inches in the row, and cultivate like corn. Cut when the seeds are at the dough stage. Six lbs. plants an acre.

Standard Evergreen—10 to 12 feet tall and yields a bush with long, straight fiber without heavy center stems and free from crooked brush. 1 lb. 20c; 5 lbs. 75c. Not postpaid

Sugar Cane

Sugar Drip—It makes a large, juicy and succulent growth. It will yield about 65 per cent of the weight of the cane in juice when extracted by a good farm mill; a stronger mill should extract as much as 75 to 80 per cent. Well adapted for Virginia. 1 lb. 15c; 5 lbs. 60c. Not postpaid.

Early Orange—Another excellent Cane for both sorghum and forage crop. 1 lb. 15c; 5 lbs. 60c. Not postpaid.

Rape Seed

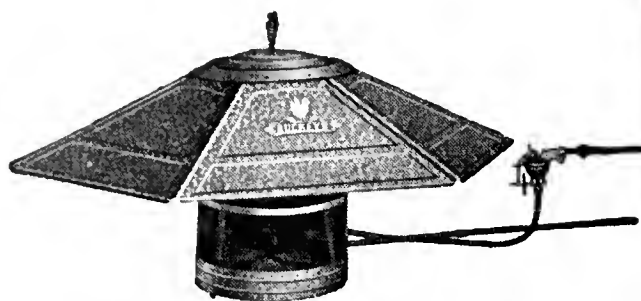

DWARF ESSEX

This crop is very highly recommended for cattle, sheep, hogs and poultry. Sow in early Spring 3 to 5 pounds per acre in drills, or 8 to 10 pounds per acre broadcast. Also an excellent green to use on the table.

Lb. 8c; 10 lb. 7c per lb. 25 lbs. 6c per lb.; 100 lbs. 5 1/2c per lb. not postpaid.

All prices on Field Seeds are subject to change without notice and F. O. B. Harrisonburg except where otherwise noted. If ordered by mail add 10c for first pound and 1c extra for each additional pound. Bags included on all items except Clovers and Timothy.

Dahlias

We are offering a wonderful collection at extremely attractive prices.

El Toreador—Medium size flower of glowing deep red, strong stems of medium length. 20c each; \$2.00 per doz.

Francis LoRocco Improved (Dec.) This is about three shades deeper than the old LoRocco, a butter yellow cutflower which remains yellow under artificial light; has very excellent stem. 20c each; \$2.00 Doz.

Jane Cowl (Dec.). Deep massive blooms of bronzy buff and old gold blending darker toward the perfect center. The petals are broad with just enough twist to add the refinement often lacking in large Dahlias. A wonderful exhibition flower. 25c each; \$2.50 Doz.

Jersey's Beacon (Dec.). Chinese scarlet, slightly paler on the reverse, giving a two-toned effect. Gorgeous flower on excellent stem. 20c each; \$2.00 Doz.

Jersey's Beauty (Dec.). Large perfectly formed flowers of a clear erosine pink, held upright on long wiry stem over a well branched bushy plant. 15c each; \$1.50 Doz.

Kathleen Norris (Dec.). Greatest pink decorative Dahlia in commerce today; true pink, later deepening to mellow pink, but paler in young central petals. Broad over-lapping petals with twisted ends, filled to center. Great bloomer and excellent keeper. 30c each; \$3.00 Doz.

Monmouth Champion (Dec.). Strong vigorous grower, producing extra large blooms of brilliant orange flame. Stems are perfect, is a splendid exhibition cutflower. 30c each; \$3.00 Doz.

Mrs. I. De Ver Warner (Dec.). Delightful color of soft orchid or deep mauve, stems are good. Bushes sturdy and produce flowers very freely. 20c each; \$2.00 Doz.

Nathan Hale (Dec.). Beautifully formed flower copper pink center, shading to gold at tips. Flowers medium size. 30c each; \$3.00 Doz.

White King (Dec.) Pure white sport of Francis LoRocco. The demand for a good white cutflower has been filled by this variety. It is an easier and cleaner grower than LoRocco. Grows large straight stems and flowers attain large size. Plainly formed: very free flowering. 40c each; \$4.00 Doz.

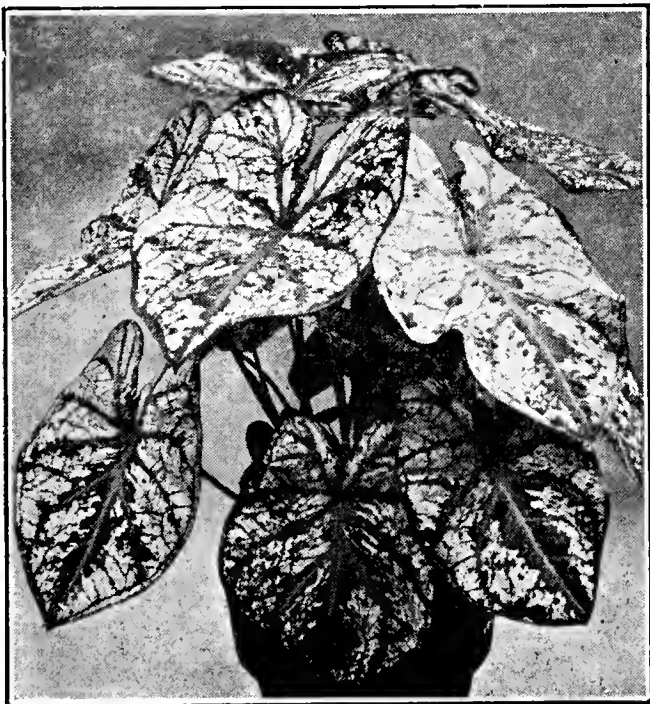

Selected Gladiolus

(FIRST CLASS BULBS)

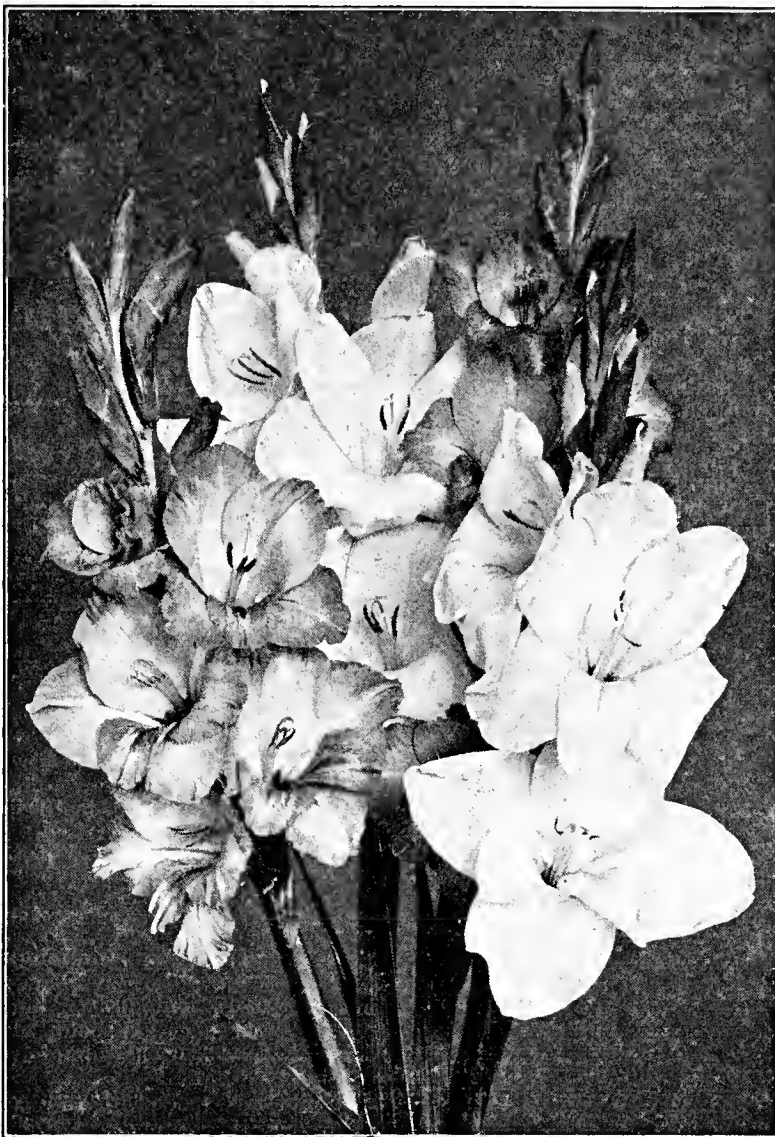

Gladiolus hold an ever increasing interest not alone for their rainbow splendor in border and garden but even more for their value as satisfactory long-lasting cut flowers. Their cultural requirements are exceedingly simple and no other garden flower gives so much and costs so little.

America—Produces heavy, strong spikes closely set with lovely large lavender-pink blossoms. 3 for 10c; 35c per dozen; \$2.75 per 100.

Betty Nuthall—A sparkling, iridescent orange-pink deepening to coral on the petal reverse. Golden orange throat lined, carmine-rose. Enormous flowers often 6 inches across. 5c each; 50c per doz.; \$3.50 per 100.

Fancy Leaf Caladium

Gladiolus

Byron L. Smith—White, delicately suffused light mallow-purple, deeper at outer edges. 5c each; 50c per dozen, \$3.50 per 100

E. J. Shaylor—Beautiful deep rose pink, slightly ruffled. Tall stems. 3 for 10c; 35c per doz.; \$2.75 per 100.

Evelyn Kirtland—Large coral-pink flowers with deeper edges and a beautiful large scarlet blotch. 5c each; 50c per doz.; \$3.50 per 100.

Giant Nymph—Very large, light pink with creamy throat. 5c each; 50c per doz.; \$3.50 per 100.

Le Marechal Foch—The delightful clear pink color of a newly blown wild rose, without markings of any kind. Well placed on the spikes and of really giant size. One of the finest early sorts. 5c each; 50c per dozen; \$3.50 per 100.

Los Angeles—Shrimp pink enhanced by a white blotch in the throat. 3 for 10c; 35c per doz.; \$2.75 per 100.

Mary Pickford—Delicate creamy white, throat of fine sulphur-yellow. First Size. 5c each; 50c per dozen, \$3.50 per 100.

Minuet—Clear light lavender with just a hint of opalescent shading. In our opinion this is still the finest of all lavender varieties. 6c each; 60c per doz. \$4.50 per 100.

Mrs. Francis King—Flame scarlet with salmon shading. Tall, very strong, and one of the finest for cutting. 3 for 10c; 35c per doz.; \$2.75 per 100.

Mrs. Frank Pendleton—Satiny salmon-pink flowers with flare wide open and showing a large blotch of velvety crimson in the throat. The combination is most pleasing and harmonious. A very popular and robust variety. 3 for 10c; 35c each; \$3.00 per 100.

Mrs. Leon Douglas—This is really a very lovely variety of exceptionally strong growth. A most pleasing luminous coral rose flaked with ruby red. 5c each; 50c per doz.; \$3.50 per 100.

Nancy Hanks—Combination of apricot orange and pink with many flowers open at one time. 5c each; 50c per doz.; \$3.50 per 100.

Orange Queen—An early bloomer, good grower and color copper-orange. 3 for 10c; 35c per doz.; \$2.75 per 100.

Peace—Magnificent white blooms with pale violet feathering on the lower petals. Good variety of great vigor. 3 for 10c; 35c per doz.; \$2.75 per 100.

Pfitzer's Triumph—A gorgeous Amaryllis-like flower of brilliant scarlet with salmon shadings. Deepens to cherry velvet in the throat. Considered the largest and finest Gladiolus ever introduced. 6c each; 60c per doz.; \$4.50 per 100.

Picardy—A most sensational flower of delicate apricot-pink. This fine Gladiolus, the individual florets all extremely large, slightly ruffled and a heavy wax-like substance, has created a sensation practically every time exhibited. "Picardy" is unquestionably one of the most outstanding recent introductions. 10c each; \$1.00 per doz.; \$8.00 per 100.

Schwaben—Large heavy-textured petals of a clear citron yellow with just a tiny mahogany-brown in the deep throat. A sturdy, robust favorite in strong demand. 3 for 10c; 35c per doz.; \$3.00 per 100.

Virginia—Intense scarlet, slightly deeper in throat. Extra fine, early, and much in demand 3 for 10c; 35c per doz.; \$2.75 per 100.

War—Its giant flowers are arranged in massive spikes giving a splendid display in the garden or as cut flowers. The color is an intense rich blood-red with a velvety crimson shading in the throat. 5c each; 50c per doz.; \$3.50 per 100.

W. H. Phipps—A really novel Gladiolus with clear pink blooms overlaid with a warm glow of salmon rose. The lower petals are faintly flecked ruby red. Huge flower-spikes of truly enormous size. 5c each; 55c per doz.; \$3.75 per 100.

Mixed Gladiolus—Box of 10—25c per doz.

Box of 12, excellent assortment, 35c per box.

Box of 25, finest assortment of standard varieties 65c per box.

Cannas

(FIRST CLASS BULBS)

Cannas bloom from early summer until frost in all sections of the country. They succeed in any sunny position and in any kind of soil, though they respond quickly to liberal treatment.

Hungaria—Plant dwarf and compact; flowers rich peach blossom pink; free, early and continuous bloomer. Foliage green and very massive; height, 3½ ft.

King Humbert, Red—Truly a king among Cannas, because of its majestic growth, which is doubly enhanced by its massive truss of coppery scarlet flowers; foliage is deep bronze; 4½ feet.

King Humbert, Yellow—(Queen Helen) A sport of the well-known bronze-leaved variety, but with green foliage; about 4½ feet high, with masses of golden yellow flowers, dotted red; occasionally some will be streaked red.

Richard Wallace—Large, showy pure canary yellow flowers carried on good stems; green foliage; 4½ ft.

Your choice of any of the above varieties.

5c each; 50c per dozen.

Caladium

Caladium (Elephant's Ear) Mammoth bulbs 9-11 in. 15c each; 3 for 35c.

Fancy-Leaved—Covers a wide range of colors. Especially suited as potted plants. 20c each, 3 for 50c.

Tuberose

Double Pearl. 4 to 6 inches. Extra large and the finest stock. 5c each; 50c per dozen.

Single... Clumps bearing a number of spikes. Preferred by many gardeners over the double variety. 5c each; 50c per dozen.

Bleeding Heart

An old-fashion favorite. Its long racemes of graceful heart-shaped pink flowers in May or June are always attractive. It is at home in any part of the hardy border and especially valuable for planting in shade; 1 to 2 ft. Strong clumps, 35c each.

Lawn Grass

Beautiful Home Grounds

How to Seed and When—Lawn Grass can be sown either Spring or Fall. Spring sowing should be done in March or April and Fall sowing in September or October. 1 lb. of seed will sow 300 to 400 sq. ft. If you have lawn problems bring them to us.

Green Island Lawn Grass Seed—Best mixture containing the finest grasses for Virginia growing conditions. (Not Postpaid) 1 lb. 35c; 5 lbs. \$1.60; 10 lbs. \$2.90; 25 lbs. \$7.00; 50 lbs. or more 27c per lb.

Shady Lawn Grass Seed—Special mixture for use under trees and heavily shaded locations. (Not Postpaid) 1 lb. 40c; 5 lbs. \$1.80; 10 lbs. \$3.30.

Park Lawn Grass Seed—Our popular low priced mixture. Suitable for Shenandoah Valley conditions. 1 lb. 25c; 5 lbs. \$1.15; 10 lbs. \$2.10; 25 lbs. \$5.00.

(If ordering grass seed by mail add 10c for first pound and 1c extra for each additional pound.)

Wetsel's Locally Tested Dependable Roses

*Outstanding Novelties for
1935 Bloom*

For Spring Planting

We are following our established custom of offering only such varieties as have proven entirely satisfactory in our local Test Garden. They have been watched daily and have been found outstanding in performance.

Countess Vandal H. T. (Plant Pat. 38)—One of the finest Roses we have ever grown. The perfumed, perfectly formed blooms, which come from long, tapering buds, are a blending of copper, salmon, and gold in color, and they are produced almost continuously on long, erect, rigid stems. Plant is upright in growth, and disease resisting. \$1.00 each; \$10.00 per dozen.

Crimson Glory, H. T. (Plant Patent No. 105)—A deep vivid crimson with a soft velvety nap that produces perfect bloom steadily throughout the season. One of the outstanding new Roses in our Test Garden. \$1.50 each; \$15.00 per doz.

Better Times, H. T. (Plant Pat. No. 23)—The brilliant cerise flowers are large, double, and delicately fragrant. Being produced on long stems, they are excellent for cutting; the foliage is dark green, a very free bloomer. \$1.50 each; \$15.00 per doz.

Glowing Sunset, H. T. (Plant Pat. No. 104)—Unusual in form and color. The long pointed buds open to full double flowers with inner petals resembling a choice Cactus Dahlia. The color is a combination of orange-yellow and rose-pink, presenting a unique and extremely pleasing color effect. A free and continuous bloomer. \$1.50 each; \$15.00 per doz.

Hinrich Gaede, H. T. (W. Kordes, 1931)—Long pointed shapely bud of a nasturtium-red color. Large, double, high centered flowers of ideal shape of a color unusual and unlike any Rose in commerce. Stems are strong and long. Blooms are produced in quick succession throughout the season. The best introduction of the year. \$1.50 each; \$15.00 per doz.

Heinrich Wendland, H. T. (W. Kordes' Sons, 1930)—The flowers are large, fully double, sweetly perfumed, golden yellow, and vivid nasturtium-red on opposite surface of petals. Extra long lasting on bush and cut, having long strong stems. This is one of the finest of the new, highly colored Roses. \$1.25 each; \$12.50 per doz.

Little Beauty, H. T. (Howard and Smith 1935)—Truly an everblooming Rose, always a mass of color. The bloom are medium in size, cerise-pink in color and extremely long lasting. Beautiful in every stage of development. It is splendid for garden decoration and indispensable as a producer of excellent cut flowers for the home and table decoration. \$1.50 each; \$15.00 per doz.

Luis Brinas, H. T. (P. Dot, 1934)—Fine pointed buds of orange-copper, opening slowly into beautiful high-centered, fully double flowers. Very lasting, color gradually changing to a lovely pink with overtones of gold. Plant growth upright, vigorous, and well clothed with disease resisting foliage. Blooms steadily the entire season. Has been an outstanding Rose in our Test Garden. \$1.50 each; \$15.00 per doz.

Mary Hart, H. T. (Plant pat. No. 8)—A striking red sport of Talisman. The bud is maroon-red, opening to well-formed blossom of deep, velvety blood-red, with an overflow of amber. Mary Hart equals, or is better than Talisman as a producer, with sturdier, heavier stems and is a strong grower. \$1.00 each; \$10.00 per doz.

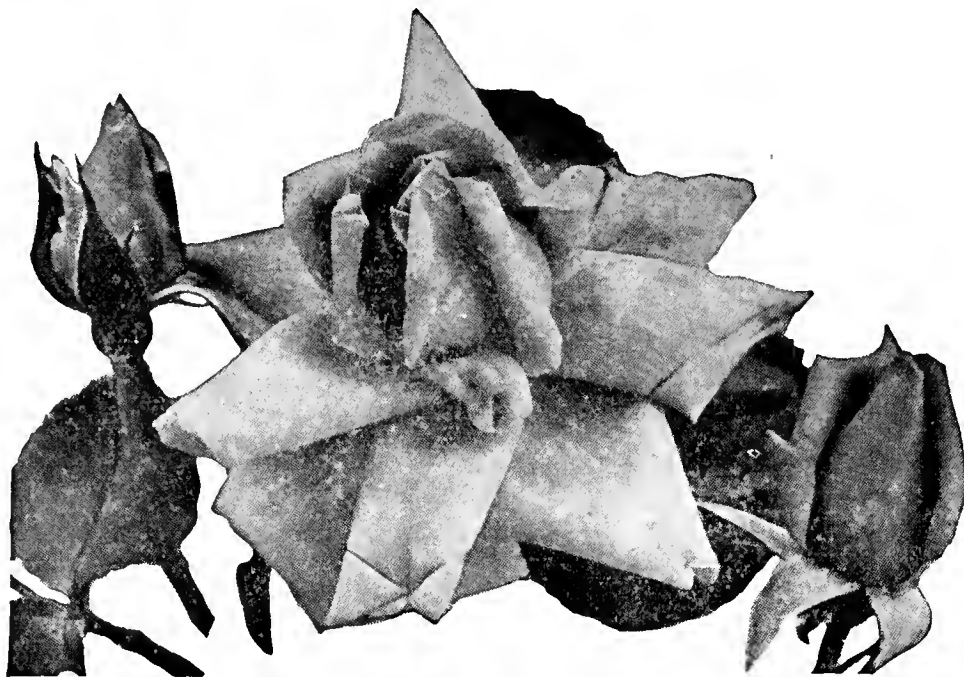

Mme. Jules Guerin, H. T. An exceptionally large, fragrant, well-formed, fully-double flower frequently measuring over 6 inches in diameter. The long, shapely buds when first expanding are golden yellow passing to creamy yellow as they develop. The plant is very vigorous in growth and free flowering. The blooms are carried on long, strong, stems. Fine for exhibition purposes. \$1.50 each; \$15.00 per dozen.

Mrs. J. D. Eisele, H. T. (Plant Patent No. 67) The Perfumed Rose with perfect form in every stage of development. In color it is a luscious shade of cherry-red overlaid with a scarlet glow, each petal having a faint silver edging. Strong, vigorous, erect, branching in growth, and a very free and continuous bloomer. \$1.50 each; \$15.00 per dozen.

Nigrette, H. T. (Plant Patent No. 87) "The Black Rose of Sangerhausen." The almost black buds open to dark maroon flowers which in their deeper shades give the impression of black velvet. Nigrette not only has remarkable color but is unusually fragrant, having a delightful old-Rose scent. The medium-sized plants are almost continuously in bloom. \$2.00 each; \$20.00 per dozen.

Souvenir de Mme. C. Chambard, H. T. (C Chambard 1931)—Flowers are large, semi-double cupped, fragrant, outer petals rich rose-red; inner petals flashy deep rose-pink, with golden glow at center. Growth vigorous, upright with dense disease resistant foliage. \$1.50 each; \$15.00 per dozen.

Token H. T. (Plant patent No. 95) A beautiful Rose of the Mme. Butterfly type with medium full flowers of a unique color, pleasing at all stages. The color is a glowing tone of sun-ripened apricot gradually finishing soft coral. A free bloomer of good habit. \$1.50 each; \$15.00 per dozen.

Golden Climber

Golden Climber (Mrs. Arthur Curtis James)—Plant patent No. 28. Golden Climber is a distinctly new departure in hardy climbers, giving bloom of Hybrid Tea type and quality, long lasting, borne on stems often 18 inches long. Golden Climber does not make a short flash like most climbers but its usefulness and beauty are long lasting. After becoming established it develops a remotent character. \$2.00 each; \$20.00 per dozen.

Blaze (Plant patent No. 10)—The New Hardy Ever-blooming Climbing Rose with the color of Paul's Scarlet and the everblooming habit of Gus and Teplitz, thus combining the best features of both its parents. Blaze received the 1933 Certificate of Merit at Bagatelle, the highest possible award for a climber. Fast growing and perfectly hardy. \$1.50 each; \$15.00 per dozen.

The following Late Introductions—all growing in our Test Garden—are priced at 85c each; or the entire dozen for \$8.50.

Autumn, H. T.—(Coddington, 1928) Burnt orange, streaked and marked with red. Bud of medium size, developing into a cupped double, fragrant, attractive flower.

Eduard Schill, H. T.—(Kordes, 1931) Large ovoid bud and a very large, full double flower. The color as the buds first unfold is a rich coral scarlet overlying a deep old gold ground, as they develop passing to pretty coral rose with satiny golden suffusion.

Eulalia (Verschuren, 1933). A splendid addition to the list of pink Roses. Immense buds opening into large flowers of a lovely shade of pink with lighter shadings toward the base of the petals. A strong grower and free bloomer.

Golden Dawn. An ideal yellow garden Rose. The ovoid, lemon yellow bud is heavily splashed with crimson before opening and develops into a well-formed, sweetly-scented, large, double, sunflower yellow flower. Strong, vigorous, and free flowering.

Impress. Very large, full blooms that last in perfection a long time. Color salmon-cerise suffused with a luminous golden sheen. The large ovoid bud is cardinal red, shaded orange. Of strong growth and a free and continuous bloomer.

Katharine Pechtold (Verschuren-Pechtold, 1933). Exquisitely pointed buds of old gold and bronzy orange opening to moderately filled, fragrant, coppery orange flowers flushed with rose and gold. The bushy plants bloom freely and continuously. A fine Rose with from 28 to 30 petals.

Lydia (Verschuren, 1932). Moderately large, full,

Hinrich Gaede

Place your order early as we do not stock these Rose plants but deliver them to you direct from our Northern grower. They are number one, dormant, field grown, two year old plants, budded on stock having an extra strong root system. Full planting instructions will accompany each shipment.

You are always welcome to visit our Test Garden located at 690 S. Mason St., and make your selection direct from growing plants.

OUR ROSES ARE GUARANTEED

We guarantee every Rose in this list to bloom at the first blooming period after purchased, failing which, we will replace the Rose or refund its cost.

high-centered, perfectly shaped flower of an orange-rose color; of strong, clean, vigorous habit and free flowering; moderately fragrant. Shapely long pointed buds.

Malar Ros—(Kordes, 1932). A new German Rose with large, pointed, oval-shaped buds carried on rigid stems. The large, rich crimson flowers are fully double. They are remarkably sweet-scented—the intense old Rose perfume. It is a first class new variety equally fine for cutting as for breeding.

Mrs. Sam McGredy, H. T.—Scarlet-orange bud. A beautiful new Rose, large fairly double bloom of orange-salmon, with a suffusion of gold. Vigorous, healthy plant. One of the best of the new tribe.

Olympiad, H. T.—(Pernet-Dutcher, 1932). This brilliant new Rose is unique—a lustrous dark Oriental scarlet, its depth of color accentuated by the golden base and intensified by a rich velvety sheen. The bud is long and pointed and the flower magnificent in every state of development.

Ville de Paris. A very distinct rich buttercup yellow without a trace of any other color, retaining its richness under all weather conditions. In formation it is somewhat similar to Radiance, fairly double, and splendid for cutting. Habit, upright and tall. A profuse bloomer.

W. E. Chaplin, H. T. (Chaplin 1929) The best all purpose red Rose we have found in ten years of testing. Color deep crimson, deeping to carmine crimson. Does not blue or burn under the hottest sun. Color same as Etoile de Hollande at its best but always has perfectly shaped buds on long strong stems. A very free continuous bloomer. Delicate fragrance.

The following Roses are a careful selection of the best varieties we have tested over a number of years. Each one is outstanding in its class and worthy of a place in your garden. Any of the following Roses at 75c each; \$7.50 per dozen.

Butty Sutor, H. T.—Inside of petals delicate rosy pink, As the flowers open there is a delightful reflexing of the petals which enhances the beauty of the pink tone. Strong, vigorous.

Betty Uprichard, H. T.—Semi-double, salmon pink flowers stained with copper-pink on the outside.

Brairecliffe, H. T.—Brilliant rose-pink, outer petals shaded lighter.

Charles P. Kilham, H. T.—Oriental-red, flushed with orange and scarlet.

Dainty Bess, H. T.—Single, shell-pink with crimson stains.

Duchess of Wellington, H. T.—Saffron yellow. Stained deep crimson.

Edith Nellie Perkins, H. T.—Oriental red shaded cerise-orange.

Etoile de Hollande, H. T.—Crimson red. Most popular red Rose.

Feu Joseph Looymans, H. T.—Long pointed buds, Indian yellow and burnt orange.

Joanna Hill, H. T.—Clear yellow with golden heart A perfect exhibition Rose

Margaret McGredy, H. T.—Oriental red passing to carmine-rose The best bedder grown

McGredy's Scarlet H. T.—Large flowers are light red with orange base, upper portion of petals are lightly washed crimson.

Miss Rowena Thom, H. T.—Rose-pink, golden suffusion, large shapely.

Mme Butterfly, H. T.—Pink, shaded with gold.

Mme. Jules Bouche, H. T.—White, tinted pink at times. Always dependable.

Mrs. E. P. Thom, H. T.—Best yellow Rose. Lemon-yellow, sweetly scented.

Polly, H. T.—Long pointed golden-yellow buds flushed with pink.

Pres. Herbert Hoover, H. T.—Cerise-pink, flame, scarlet, yellow.

Radiance, H. T.—Carmine pink.

Red Radiance, H. T.—Cerise.

Talisman, H. T.—Reverse of petals yellow, inner petals gold and deep rose pink.

Wilhelm Kordes, H. T.—Vivid salmon-pink shaded with orange, and yellow.

Our listing is limited to varieties we have grown and observed personally. Should you desire other varieties we can furnish them at the prevailing prices. We will pay delivery charges on dormant plants. After April 1st, potted plants are usually supplied on which the buyer pays transportation charges.

THE WETSEL SEED COMPANY, Inc.
